

Most aged concrete has imperfections in the form of cracks, discoloration, pop outs, and other flaws. **H&C[®] Concrete Resurfacers & Overlays** provide an economical alternative by giving the surface a complete face lift without having to replace it. Available exclusively at Sherwin-Williams[®] stores.

H&C[™] DURA-TOP[™] BROOM FINISH REPAIR

H&C[™] DURA-TOP[™] FINE TEXTURE CONCRETE RESURFACER

**FEATURES/
BENEFITS**

- Cementitious product with exceptional bond and freeze/thaw resistance
- High impact and abrasion resistance
- Perfect for repairing salt and damaged driveways and sidewalks
- Can be used with H&C solid color Stains and Sealers and H&C Clear Sealers

- Fine texture for smooth surface lower profile
- Slower setup time for hot and humid climates
- Can be used in conjunction with H&C stains to achieve a variety of unique colors and finishes
- Durable and cost-effective solution to replacing old, worn concrete
- Accepts H&C[®] DURA-TOP Color Packs.

- Skid and abrasion resistant
- Cooler than regular concrete
- Attractive and durable finish
- Not suitable for vehicular traffic
- Can be used with Solid Color Stains & Sealers or H&C Decorative Stains and Dyes

- Skid an abrasion resistant
- Freeze/thaw resistant
- Attractive and durable finish suitable for vehicular traffic
- Can be used with Solid Color Stains & Sealers or H&C Decorative Stains and Dyes

- Premium polymer for use in single component cementitious texture products
- Ideal for driving and walking surfaces
- Excellent adhesion promoter
- Low maintenance, abrasion resistant

- Dual Component
- Skid and abrasion resistant
- Freeze/thaw resistant
- Ideal for traffic surfaces
- Can be used with Solid Color Stains & Sealers or H&C Decorative Stains and Dyes
- Texture Resin
- Premium polymer for use in dual component cementitious texture products
- Excellent adhesion promoter

- Can be applied in a single coat application, saving time and money
- Used in conjunction with H&C stains to achieve a variety of unique colors and finishes.
- Durable and cost-effective solution to replacing old, worn concrete
- Finely blended aggregate for a smooth, aesthetically pleasing finish
- Self bonding, single component, just add water.

- Imparts additives, which enhance the cement in the system.
- Special copolymers create adhesion and flexibility essential in a thin topping.
- High performance admixtures increase strength, reduce permeability and shrinkage by combining with calcium hydroxide produced during hydration of the cement.
- Admixtures help improve chemical resistance, reduce efflorescence and alkali-silica reactions.

- Easy to use
- Provides color to all H&C bagged goods systems
- Instant color - no need to stain
- Can be used with Solid Color Stains & Sealers of H&C Decorative Stains & Dyes
- 30 packaged colors

- Colors & hardens freshly placed concrete
- Excellent abrasion and wear resistance
- Produces a brilliant streak-free surface
- Perfect for stamped concrete applications
- 10 colors available for both Hardner and release

- Fast repair sets in 15-30 minutes
- Single Component easy to apply
- Compressive strength stronger than concrete
- Can be used with Solid Color Stains & Sealers of H&C Decorative Stains & Dyes
