PRODUCT DESCRIPTION
H&C® ULTRAPAVER® Water-Based Gloss Paver Sealer is a premium quality gloss sealer that penetrates and protects all types of porous decorative pavers as well as bonding joint sand. This water-based penetrating sealer will enhance the appearance of pavers while providing excellent weather and water resistance. It will apply milky white to ensure complete coverage, but dries to a clear transparent finish.

FEATURES & BENEFITS
• Enhances the appearance of pavers by imparting a beautiful high-gloss finish.
• Provides long-lasting protection from weathering and water damage.
• Solvent-free formulation is environmentally friendly.
• Rolls on milky white and dries to a clear, glossy shine.
• Simple soap-and-water cleanup.
• Bonds, seals and stabilizes paver joints

RECOMMENDED USES
H&C ULTRAPAVER Water-Based Gloss Paver Sealer can be used on bare exterior concrete, masonry and brick including patios, walkways, driveways, pool decks and retaining walls.

COVERAGE RATE
On standard concrete or masonry pavers: 100-150 sq ft/gal
Note: Coverage will vary depending on paver porosity and texture.

SURFACE PREPARATION
All surfaces should be free of oil, grease, mildew and previous coatings.* Excess joint sand should also be swept off the surface prior to application. Use H&C® CONCRETEREADY® Cleaner Degreaser mixed to a 50/50 ratio with water to remove light soil from the surface, and full strength to remove heavy oil and grease stains. Do not apply if rain is expected within 12 hours.

WARNING: Removal of old paint by sanding, scraping or other means may generate dust or fumes that contain lead. To avoid exposure to lead dust, wear proper protective equipment, such as a properly fitted respirator (NIOSH approved) and follow proper containment and cleanup procedures. For more information, call the National Lead Information Center at 1-800-424-LEAD (in U.S.) or contact your local health authority.

TOOLS REQUIRED
• Nylon or polyester brush
• Synthetic roller (nap thickness no greater than ⅜ inch)
• Low-pressure pump sprayer
• Eye Protection
• Respiratory Protection
• Gloves

APPLICATION INSTRUCTIONS
For the best results, air, concrete surface and material temperatures are between 50°F and 90°F and at least 5°F above the dew point during and for 24 hours following application. Do not apply if rain is expected within 12 hours. Allow newly installed pavers to weather a minimum of 60 days before sealing.

How to Apply: H&C ULTRAPAVER Water-Based Gloss Paver Sealer can be applied by brush, roller or airless spray equipment. The most efficient method of application is with a low-pressure pump sprayer with a nozzle pressure not exceeding 20 psi. Apply the sealer liberally and evenly to flood the surface. Remove excess material by back rolling, squeegee or wiping. If coating vertical surfaces, such as retaining walls, apply the sealer in the same manner, working from the bottom to the top of the wall and maintaining a wet edge to prevent lumping. On horizontal surfaces, apply the sealer liberally and evenly, flooding the paving stone joint to achieve maximum joint sand stabilization. The sealer will apply milky white and dry clear in approximately 1 hour.

Additional Coats: One coat is adequate for proper sealing and joint sand stabilizing. If a second coat is necessary, apply within 4 hours of first coat. For best coverage, apply second coat crosswise to the first coat. Do not over apply.
**SLIP RESISTANCE**
Some surfaces such as inclined driveways, garages, steps and patios may require a slip-resistant additive for safety. Add H&C® SHARKGRIP® slip-resistant additive to the final coat, following label directions. This additive should not be used in place of a nonskid finish.

**CLEANUP**
Clean sprayer and application tools with soap and water immediately after use. Spray clear water through the line of the sprayer until the water runs clear.

**MAINTENANCE**
Clean light to moderately soiled surfaces with a 50/50 solution of H&C CONCRETEREADY Cleaner Degreaser and water. Use the cleaner full strength for heavy soiling, such as oil and grease stains.

Clear Part Number/SMIS
1 gallon 50.147054-16 / 6507-12235
5 gallons 50.147055-20 / 6507-12243

**CAUTION**

CAUTIONS: Use only with adequate ventilation. To avoid overexposure, open windows and doors or use other means to ensure fresh air entry during application and drying. If you experience eye watering, headaches, or dizziness, increase fresh air, or wear respiratory protection (NIOSH approved) or leave the area. Avoid contact with eyes and skin. Wash hands after using. Keep container closed when not in use. Do not transfer contents to other containers for storage. FIRST AID: In case of eye contact, flush thoroughly with large amounts of water. Get medical attention if irritation persists. If swallowed, call Poison Control Center, hospital emergency room, or physician immediately. **DO NOT TAKE INTERNALLY. KEEP OUT OF THE REACH OF CHILDREN.**

**LIMITED WARRANTY**

Seller’s and manufacturers only obligations shall be to replace such quantity of product proved to be defective. Neither seller nor manufacturer shall be liable for any injury, loss or damage, direct or consequential, arising from the applicator’s inability to use the product for his/her intended use. The user assumes all risk and liability.
