WATER-BASED CLEAR CONCRETE SEALERS  
WET LOOK & NATURAL LOOK

## PROTECTS AND EXTENDS THE LIFE OF CONCRETE.

Low odor, water-based formula is great for interior & exterior applications and offers easy cleanup with soap and water.

**For use over bare concrete and masonry surfaces or existing water-based coatings.**

### Commonly used on:

- Pavers
- Driveways
- Patios & walkways
- Decorative stains
- Pool decks
- Brick, block & stucco
- Commercial floors
- Basement floors

**Crystal clear**  
non-yellowing formula

**Durable finish**  
protects and extends life of concrete

**Resists damage**  
from water, salt, UV rays, oil and chemical stains

**Withstands vehicular traffic**  
*not recommended for garage floors*

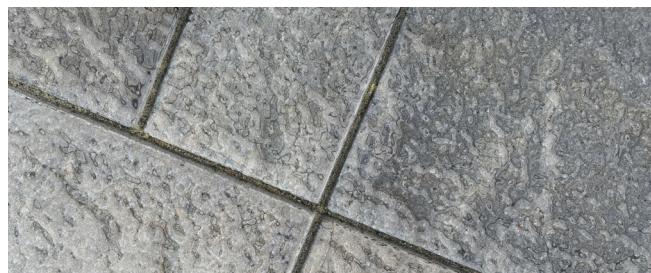

## START STRONG WITH THE RIGHT PREP.

Remove all debris, dirt and dust from the surface. Then scrub the floor with **H&C ConcreteReady® Cleaner/Degreaser**, rinsing and drying completely.

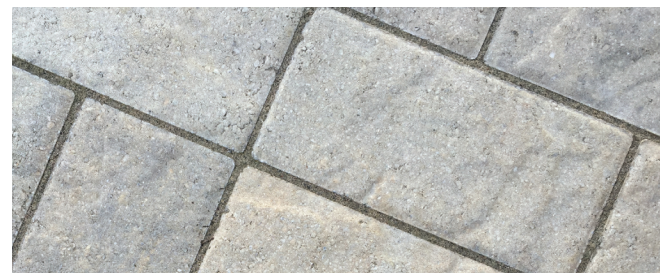

### Etching is an essential step.

Etching concrete with **H&C ConcreteReady Etching Solution** prepares the surface to be coated by opening up the pores of concrete so H&C coatings can properly bond with the surface. It ensures proper adhesion and an even finish.

### Wet Look

High-sheen finish that enhances the look of concrete.

### Natural Look

Low-sheen finish that maintains original beauty.
