

Pro Series Resurfacers

HOW TO CHOOSE

Most aged concrete has imperfections in the form of cracks, discoloration, pop outs and other flaws. H&C® Concrete Resurfacers and

overlays provide an economical alternative by giving the surface a complete face-lift without having to replace it.

CUSTOMIZE WITH COLOR

Use Dura-Top® Concrete Resurfacer Color Packs to create unique concrete surfaces. Add them to any resurfacer product for an instant pop of color. See page 60.
